

# ADDITIVI PER LITOCROM STARLIKE

## GALAXY - SPOTLIGHT NIGHT VISION - BRONZE - GOLD

### DESCRIPTION

The additives GALAXY, SPOTLIGHT, NIGHT VISION, BRONZE and GOLD when mixed together with the two-part epoxy mortar LITOCROM STARLIKE, enable to get grouts with unique and exclusive effects without prejudicing the ease of cleaning of the product .

These additives are available separately, in pre-batched packages for the 5 kg LITOCROM STARLIKE bucket.

**GALAXY:** this component can be added to any colour of the STARLIKE range to get a "metallic "effect.

In comparison with the original colour without additive, you get a slightly lighter colouring.

**SPOTLIGHT:** this component can be added to any colour of the STARLIKE range to get a shiny glittering effect. The original colour doesn't change.

**NIGHT VISION:** this component can be mixed with following Starlike colours: Travertine - Sand - Coral - Silver - Ocean - Sapphire - Aquamarine - Giallo Sun. It is a luminescent additive that, without changing the original colour of the product, allows to obtain grouts that, after being exposed to sunlight or artificial light, give out in the dark a bluish colour for some hours.

**BRONZE:** this additive can be added to the neutral colour to get a metallic colouring like bronze.

**GOLD:** this additive can be added to the colour GIALLO SUN to get a golden colouring.

### APPLICATION FIELDS

Special additives for the two-part epoxy mortar LITOCROM STARLIKE suitable for grouting floor and wall tiles, mosaics, gres porcelain tiles ,clinker in interiors and exteriors such as: bathrooms, kitchens, floors of showrooms, shops, columns...

### MIX PREPARATION

1. Mix part B (catalyst) with part A (coloured paste) of the 5 kg bucket LITOCROM STARLIKE using an electric drill equipped with mixing paddle until a uniform, lump-free mix is obtained.

2. Pour the third component (GALAXY-SPOTLIGHT-NIGHT VISION-BRONZE-GOLD), already pre-batched in its package ,and mix till getting a smooth mixture.

### APPLICATION

Introduce the mortar into the joints using a rubber float and clean with water following the instructions on the packaging.

Σ

### CAUTIONS

Do not apply the epoxy mortar LITOCROM STARLIKE mixed with the components GALAXY-SPOTLIGHT-NIGHT VISION-BRONZE and GOLD on ceramic surfaces in contact with chemical weapons such as on industrial floorings).

Handle the additives with care, since they have a very low specific weight and so are extremely volatile.

☒ the ceramic tiles are exposed to sunlight or artificial light, the effects you can get with these additives stand out more.
